PROFILE

Backend-focused Full Stack Developer with hands-on experience in building scalable web and mobile applications using Laravel, MySQL, React JS, Flutter, and Tailwind CSS. Experienced in developing e-commerce platforms and implementing on-demand delivery features, including Payment Gateway integration (Speedcash) with transaction validation and API handling. Strong in RESTful API development, database design, and backend system architecture, with additional experience in Linux server setup and deployment. Graduated with GPA 3.78 in Informatics Management and completed Bangkit Academy Android Developer program. Passionate about building secure, efficient, and maintainable backend systems while remaining flexible across frontend and mobile development.

EXPERIENCE

Fullstack Developer

PT Gift Asia Pasifik | October 2025 – February 2026

- Developed and maintained e-commerce web and mobile applications using Laravel, Flutter, and MySQL.
- Designed and implemented RESTful APIs for order, user, and transaction management.
- Integrated Speedcash Payment Gateway including payment request, callback handling, and transaction validation.
- Built on-demand delivery features (“Antar Aku” & “Antar Paket”) with real-time order processing logic.
- Developed frontend interface using JQuery and Bootstrap.
- Collaborated with team in system design, API integration, and feature deployment.
- Performed debugging, testing, and performance optimization.

Web Developer (Intern)

PT Radnet Digital Indonesia | Februari 2023 – Juli 2023

- Developed and maintained websites for SMEs (UMKM) in Surabaya using Laravel.
- Built dynamic landing pages integrated with an admin dashboard for content management.
- Implemented backend logic and database management using Laravel and MySQL.
- Developed responsive user interfaces using HTML, CSS, Bootstrap, and jQuery.
- Configured and managed a private server using Linux Ubuntu for deployment purposes.
- Assisted in website deployment, maintenance, and performance optimization.
